

CALIFORNIA COMPUTER OPTIONS Cloud Communications

Next-Gen Voice, Video, Messaging & Collaboration

Computer Options 7.0 Solution Overview

Computer Options 7.0 is uniquely designed for modern businesses & remote workers who need easy-to-learn, easy-to-use, all-in-one communication and collaboration tools.

Computer Options 7.0 is our next-gen voice, video, messaging, and collaboration solution, and the evolution of our proven and industry-leading cloud communications platform. It's an all-in-one solution combining high-quality voice & video with critical collaboration capabilities modern workforces & employees need to be productive & stay engaged, whether working remotely or in the office.

Computer Options has a built-in softphone for making and taking calls, robust call features such as 3-way calling, call transfer and visual voicemail, plus HD video meetings, Chat & SMS messaging, virtual rooms, contacts w/ presence as well as an extensive list of advanced and innovative features you can't find in any other solution. Accessible through a downloadable desktop app, as well as browser and mobile clients (all with equally delightful user experiences), Computer Options 7.0 is uniquely designed for modern businesses and remote workers who need easy-to-learn, easy-to-use, all-in-one communication and collaboration tools.

Unleash the power of the modern workforce...

Computer Options Outshines & Outperforms the Alternatives

Brings way more to the table than even the most well-known video solutions, seamlessly integrating high quality voice, HD video, Chat & SMS, meetings, Rooms, and advanced collaboration features. All of this is combined in one easy-to-learn, easy-to-use tool conveniently enabled for Single-Sign On and calendar integration with Microsoft 365 and Google Workspace.

Computer Options delivers delightful, high value differentiators that far surpass alternative video offerings; here are a few examples to provide a glimpse into why you're going to love Computer Options 7.0—

- **It's designed as a collaboration-first solution, not a meeting-first product.** Computer Options is a true collaboration space offering far superior collaboration capabilities when compared to point-solution apps that only provide a place to conduct meetings.
- **Computer Options revolutionizes the entire video & meeting experience.** Innovative development and high-value built-in features eliminate widely tolerated flaws and glaring capability gaps associated with the alternatives.
- **Virtual video rooms, just like your office, are always "on" and always available.**

***Computer Options 7.0
instantly transforms
employee engagement,
customer experiences,
& productivity across
the entire company.***

Computer Options Rooms create highly personal, face-to-face interactions and nurture camaraderie whether working in the office or remotely. With features such as Lock & Knock and advanced admin/moderator controls, the entire Rooms experience can be controlled and enhanced with a simple click.

- **Private Sidebar Conversations w/ Audio & Video (in Meetings & Rooms)**— An absolutely AWESOME way to maximize productivity and confidentiality during meetings and Working sessions.
- **Bookmarks**— A true game-changer for meetings and Rooms collaboration, especially for single- screen users. Once you experience Bookmarks you won't be able to live without it.
- **Lightboard aka "The Weatherperson Feature"** — This is one of those cherry-on-top features customers will adore using. Using our advanced yet easy-to-learn Lightboard tool, meetings and presentations come to life. Lightboard instantly elevates participant engagement and adds the kind of "wow" factor many organizations pay tens of thousands of dollars to obtain from complicated, hard-to-learn third party tools.
- **Flexible Video Tiles & Layouts**— Every user gets "the best seat in the house" with customizable layout preferences. Get enterprise-level "telepresence" but without the price tag (it's included for free in every seat!)
